

# TINLEY'S BEVERAGE CO.

Tinley's Beverage Company was founded with a mission to help consumers enjoy cannabis in familiar, classic beverages, Micro-Dosed to perfection. Their multi-serve brand, Tinley's™ '27, pays homage to the year 2727 BC, the earliest recorded use of medical cannabis. It is also a tip of the hat to 1927, the year prohibition ended in Ontario, Canada, from which some Tinley's team members hail. Non-Alcoholic Tinley's™ Tonics and Tinley's™ '27 products are lower in sugar and calories than their beverage alcohol counterparts. Tinley's™ drinks are created with cannabis strain varieties that are sought after by consumers, in harmony with their range of contemporary lifestyles and tastes. They're a team of experienced cannabis and beverage experts, committed to excellence in formulation, sourcing, production and distribution. They've found the finest, fast-onset cannabis distillate from Northern California, and they craft it with premium essences of spirits and liqueurs, and terpenes for a full-flower effect.
